MEMORANDUM FOR: The Director

SUBJECT: Your Conversation of 15 April with Clarence Kelley

1. The complaints which Director Kelley mentioned about CIA conducting activities without checking with the Bureau must be based on long-past events. The attached memorandum from Jack Blake points out that the most recent instance of the type of activity mentioned by Kelley occurred in 1971 and that all such known cases have been reported to the Department of Justice. CI Staff [REDACTED] report no recent problems. I think you should set the record straight with Kelley on this and if there is any indication he is not talking about past events, we should ask for clarification so that we can determine what action is required.

2. In addition, you indicated that as a result of your conversation you were not clear on the interplay between the Agency's and the Bureau's respective investigative and counterintelligence roles. Attachment 1 outlines the Office of Security's relationship with the Bureau. Essentially, the Bureau provides Security with CI information and other information affecting CIA employees, employees of our contractors, and the security of our installations, operations, or information. Security provides the Bureau with information that comes to our attention on matters that may be within the FBI's investigative jurisdiction. [REDACTED]

3. Attachment 2 outlines the areas in which the DDO and the FBI cooperate. It contains attachments should you wish to go into any of these areas in greater detail. Essentially, the DDO coordinates with the Bureau on the assessment and recruitment of any foreign official or other foreigner we undertake in the US, and cooperates in CI and electronic surveillance cases in accordance with procedures approved by the Attorney General and the DCI. In addition, the DDO and FBI exchange trace information and information concerning CI and terrorist activities.

MEMORANDUM FOR: Mr. William Wells

FROM : Admiral Turner

SUBJECT : Conversation with FBI Director  
Clarence Kelley, 15 April 1977

It wasn't clear to me from some of the things he said as to how much interplay there is between our investigative and counterintelligence activities and his. He indicated there is suspicion in the FBI that the CIA wants to take over all domestic intelligence activities.

a. He specifically mentioned complaints that there were times when we conducted activities like intruding into houses of U.S. citizens or aliens without checking with the FBI first. Our investigators would think they could get away with this without anybody knowing it and therefore wouldn't check.
